

eTraining Specialists

What is eTraining from RMB Global?

RMB's eTraining is the ultimate solution to your training needs. Our technology expertise lets you deliver knowledge to working professionals 24 hours a day, seven days a week. We consult, design, customize, develop, and implement user training via UPK Personal Navigator software. These state-of-the-art interactive courses are student-centered, web based, and customized for individual roles in your organization.

RMB can maximize the use of UPK software for your organization:

eTraining eliminates the need for most classroom-style training saving time and cost

Our eTraining solution is easy to maintain

We work with your IT Group to support and deploy eTraining

- Effective, dynamic topic introductions and concepts
- Organization of modules, chapters and topics in an outline format allows room for future development, additions and revisions
- Jump-in points allow students to go directly to a specific subject within a topic
- Printable Business Process Documents (with screen images), Job Aids (quick reference guides), Training Manuals, and Instructor Guides
- Links within topics to printable documents allow users a choice of when, where, and how they choose to learn
- A customized glossary with your industry lingo
- Links to glossary words included in each topic
- Roles assigned on a topic by topic basis
- For some JDE versions, context id's are captured allowing JDE Help to link directly to the UPK topic
- Usage Tracking reports identify who is utilizing the training tools
- Four modes identified below maximize the learning experience—Seelt! TryIt! KnowIt! and DoIt!

Seelt!

Learn a topic using video with professional voice narration, text explanation and screen images

TryIt!

Interact with the topic for maximum kinetic learning and retention

KnowIt!

Test user's knowledge of a topic. Requires passing with a pre-set percentage of correct answers

DoIt!

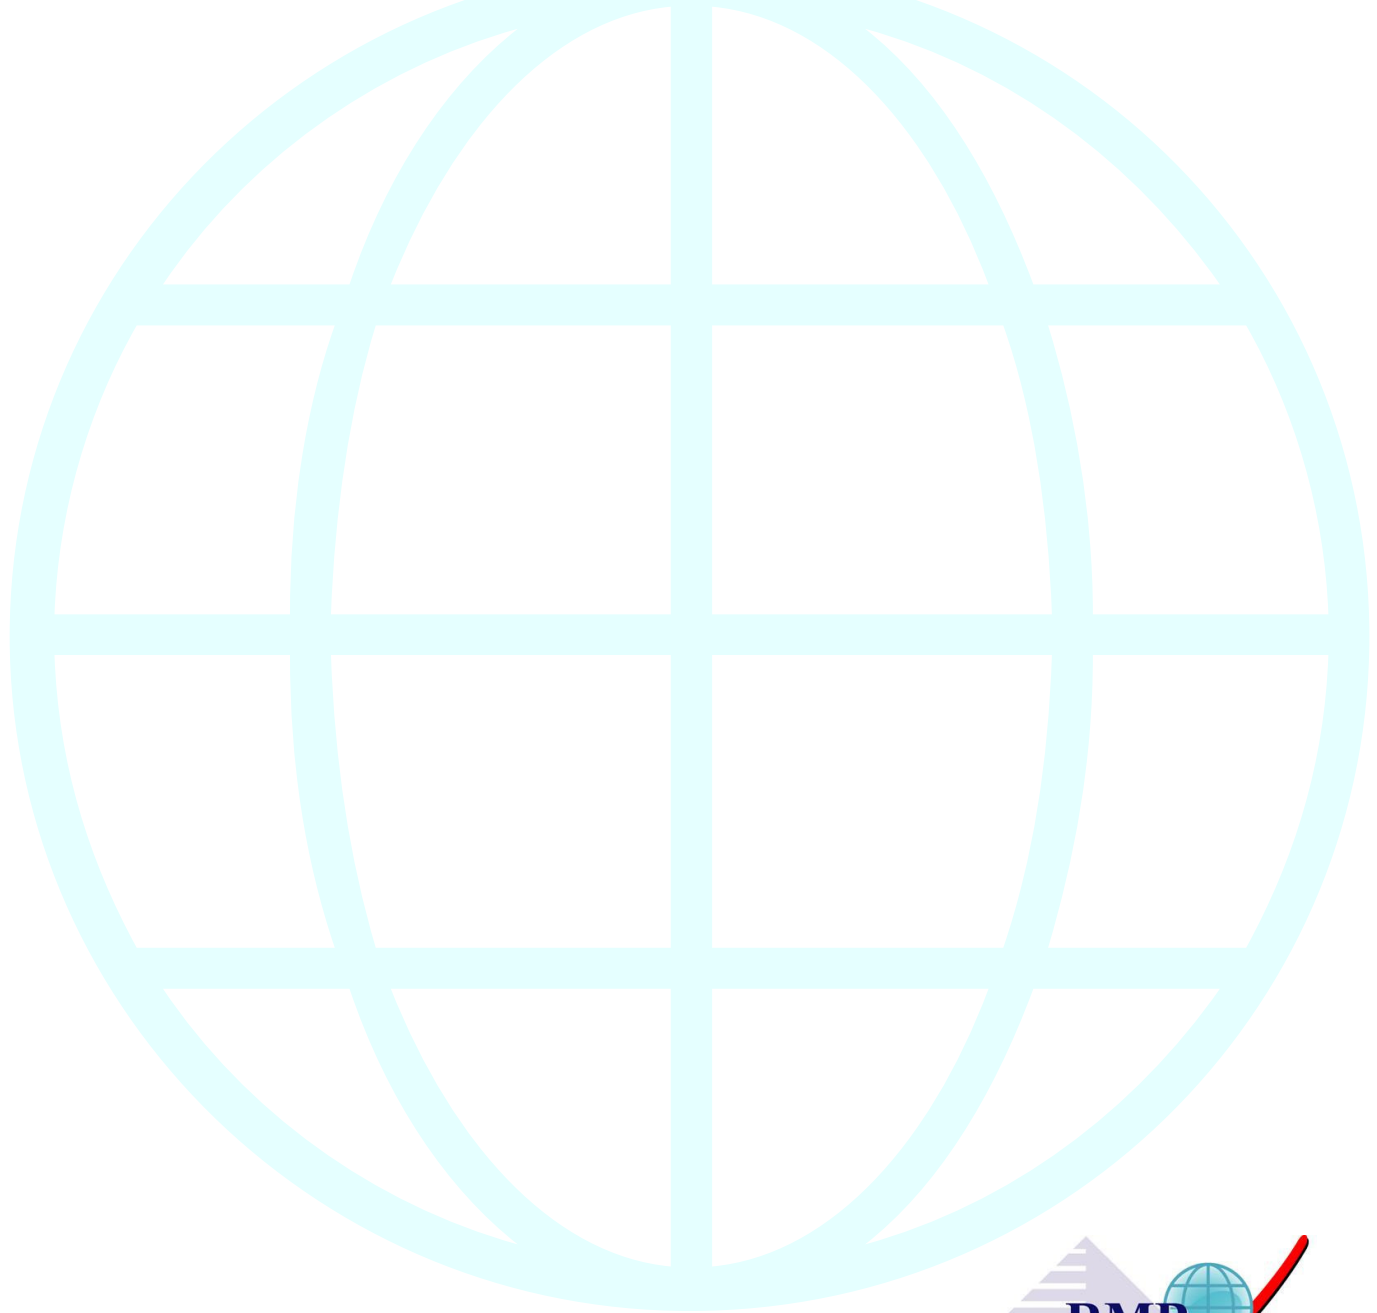

Provides instructions while in the live JDE production environment
